

Curriculum

- K-8 mathematics curriculum framework complete and ready to roll out; K-8 literacy work continues
- Remote Learning: Teachers identified 5 critical proficiencies and focused instruction on these areas during school closure

Instruction

- SU focus is currently on high quality mathematics instruction
- Math Program: OUUSD and WRVS will implement Illustrative Mathematics next year k-8. A two-day training will be scheduled for this summer to help teacher's acclimate to the new program
- We will begin looking at literacy programs for k-8

Assessment:

- Work continues on the SU Assessment Plan
- K-8 teachers will provide summative narratives through Infinite Campus; 9-12 will provide proficiency-based with modified scales

Mentoring

- Second cohort training begins July 14 (online venue) for VT NEA Mentoring Matters Program. We have 19 teachers and 2+ principals planning to attend
- Handbook has been completed

Professional Development

- Regional focus is on Assessment, Mentoring and Instruction: Universal Design for Learning (Instructional Framework), NGSX (Science) and C3 Frameworks (Social Studies)
- Many of the training sessions are teachers were planning to attend have shifted to online venues and are still happening this summer
