

School Board Report

This year we are feeding students under the SFSP(Summer Food Service Program). This allows us more flexibility in the Requirements than the NSLP. We also get more reimbursement for breakfast and lunch through the SFSP.

We are currently feeding around 185 students per day for lunch and 100 students for breakfast.

Starting November 2 we will be offering a sandwich bar for grades 7-12. Students will have meat and cheese options along with vegetables, chips, pickles and banana peppers. We will also offer a variety of bread options. We are still working out the details on the serving end of this.

Delivering meals to the elementary is going well. We have a system that works for everyone.

Sincerely

Dena Baker
