

Greetings Collective Leaders-

For all of you except Linda, this is not a new topic coming from me. For the past 10 years the status of the BAGSD Trust Funds has been a topic I have raised around Annual Meeting. So not to disappoint, I raise it again with a focus on the Bugbee Landing funds. After much work, the ownership and responsibility for Bugbee Landing was transferred from the school district to the Town of Bradford. When that complicated work was finally completed the transfer of the Trust Funds was left as the last detail. The original funds were donated to the BAGSD by Lloyd and Lucy Bugbee for maintenance of the landing area in the early 70's. The Board created a separate trust fund with the intended practice of using the accumulated interest to support the care of their generous gift. Since the town is now the responsible party for the continued stewardship of this valuable community asset, I would be interested in a timeline for the transfer of the Trust Funds.

I realize there are a lot of issues as OUUSD prepares for the Annual Meeting, but now is a pertinent time to complete this transfer before Melissa leaves the Board, since she and I have over ten years discussing this very process.

Thank you all for your work in addressing this need, and thank you Melissa for your many years of intelligent and heartfelt guidance over the Bradford Elementary School.

Wishes of peace and wellness to you all,

Skip
