

Strategic Plan Committee

Minutes of May 4, 2021 meeting and follow-up meeting May 7, 2021

Present: Bruce Williams, Monique Priestley, Timm Judas, Carol Cottrell

The committee members reviewed the executive summary Monique created from the data collected from the questionnaire survey. Again, we were heartened by the number of responders and their considered, caring responses. We commend Monique on the excellent work she did in creating the summary document. There are clear trends that we feel will help guide the OUUSD School Board in making decisions.

We believe the data collected from our survey, coupled with the climate survey and the ESSER fund "Redesign" plan will coalesce into a purpose driven direction.

Our next steps are meeting with different groups of stakeholders and sharing the findings from the survey.

Our next meeting will be called after the planned group meetings and further direction from the Board. We will likely enlarge the group's membership for the purpose of creating the strategic plan document.

Respectfully submitted,

Carol Cottrell
