

Danielle,

I am interested in the board position since my children have been part of the OESU school system for over 10 years and I desire to take more of a active role in the Newbury community. I have lived in West Newbury for over 10 years with my husband and three children. I have been practice manager with Upper Valley Pediatrics who serve the Bradford, Newbury and other surrounding towns with preventive pediatric care. I have recently step down as practice manager so I have the time to commit to a board position.

Thank you for your consideration.

Angela Wheeler
West Newbury VT
