Dear OUUSD School Board,

I am writing to you for an assignment in my school's American Government History Class. I would like to thank you for being a part of the school board, and being there to receive this letter. I am writing to you today, to talk about the quality of school lunches.

The lunches at our school are subpar to say the least. They are tasteless, and the portions are not big enough for a high school student, let alone a senior in high school. The food follows too closely to the strict nutrition requirements that was put into action in 2010. The act was for healthier, and better school lunches. However the portions were designed for elementary school kids, and carried all the way through highschool. There were some benefits to the act, for example the mandate of fruits and vegetables, and it brought down the prices of school lunches, so it was more widely available. I believe that schools should include the price for a standard lunch in their tuition costs, and this lunch should be both nutritious and tasteful.

I would like to again thank you for working to better our school, and accepting feedback from the students that attend. I would like to know your thoughts on the quality of school lunches, and your feedback would be greatly appreciated.

Sincerely,

Nathan Bachus
