Dear Blue Mountain Union School Board,

Hello, my name is Biancca Carbee and I'm currently a sophomore at BMU wanting to graduate a year early. My current graduation year is 2024, but would like to graduate with the Class of 2023. I want to graduate early because I want to move on to my career path faster, and I would like to graduate with the class I'm supposed to. Just a little backstory, I stayed back in kindergarten with my birth mother. We moved around a lot and did not have a solid educational foundation because of these changes. Once I was adopted, I found stability that has allowed me to be successful in the school setting. I stay on top of my grades and always get my work in on time. I plan to continue my path in earning the graduation requirement in three years by doing in-person and online classes. I just recently finished my first class online and learned a lot about African American history. I hope to take as many classes as I can this year, so my senior year will be less stressful. The steps I plan to take are to make sure I stay on top of my classes, complete assignments on time, and if I get behind I will ask for help or I will refocus myself to get back on track. Refer to my educational plan on the next page. You will see what I took last year, what I am taking this year, and what I plan to take next year.

My plan for after high school is to go to college and major in early childhood education. I hope to teach in the early grades and one day. I would like to become a kindergarten teacher. I plan to attend River Bend Career and Technical Center my senior year so I can get some exposure to the educational setting. At this time, I am still exploring my educational options, and will have a plan in place before I graduate BMU.

Biancca Carbee's Three Year Graduation Plan
