Hi Surrina,

Your letter will be part of the public correspondence packet for the OESU Board. May we have your town of residence for the record, please.

As a parent of 2 (current) oesu students I am concerned at the choice of anyone thinking it's ok to "mandate" our teachers to get vaccinated or lose their jobs?!?! This blows my mind. First off the Director of the CDC said get vaccinated for yourself if you choose to. The vaccine does not prevent you from getting Covid or spreading Covid actually the vaccinated are more dangerous because they could have it and be spreading it and this is coming from someone who is vaccinated however having said that it is a persons choice to be vaccinated or not to be. What are we teaching our children? Shut up and do as your told? I think not! I want my children to stand up for what they believe in and fight for their freedom of choice. Stop the madness. LEAVE OUR TEACHERS ALONE!! We have some amazing teachers and to think we could lose even 1 is too many. Let them choose what is right for themselves. They can continue to be tested weekly. Also let's not forget it's not even FDA approved!!! This is a slippery slope that we should not be going down.

Concerned parent! Surrina Gilman
